

Town & Country is committed to keeping our employees and visitors safe. The following guidelines have been made to adhere with LA County's health and safety protocols:

1. Schedule an appointment – We are limiting our showroom access to one client/ group at a time. This is to allow you to utilize the entire showroom and make the most out of your appointment.
2. Wear a cloth face covering or mask – You may use your own. We also have disposable masks, gloves, and sanitizer, available to you at check-in.
3. Visitor Check-In & Log – All visitors are required to pass a temperature screening and basic symptom questionnaire. You will also be required to complete a visitor log before entering the facility.
4. Practice physical distancing – Please maintain a distance of 6 feet or more with others outside of your group.
